DETAILED ACTION

Specification

1. A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. For example, in claim 1, it is not clear how the bottle body is compressed in the longitudinal direction and the bellows are compressed toward the center of the bottle. The language "a state in whichcrushed in a lapped manner can be kept" is unclear. Additionally, the claims contain indefinite language such as "to an original shape before crushing" and "crushing by a pressure for charging said contents".

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 4,035,461; US 5,292,242; US 3,494,509; US 3,819,789; US 3,608,268; US 4,079,111; and US 3,826,409.
